## REPORT NOTES

The statistical data in this report is derived from the Police Information Management System (PIMS) and compiled by the Centralized Analysis Section. In order to make a fair comparison, we are using data which *has not been allowed to increase* due to late reporting of crime. Using static numbers allows us to compare crime levels at a specific point in time and make an accurate determination of increases or decreases.

The data contained in this report will only reflect the number of offences reported in the original publication. They are not updated. Although late reporting may occur, and offences may continue to be cleared as time passes, these new events are not taken into account when preparing this statistical report. It is important to note that cases are often cleared months and sometimes years later. Cases “cleared by charge” and those “cleared otherwise” are included in these totals.

# Calgary Crime Statistics – STATIC NUMBERS

The static crime numbers on this page are derived from historical Calgary Police Service Statistical Reports. These statistics are used in order to make a fair comparison using data which has not been allowed to increase due to late reporting of crime. Using static numbers allows us to compare crime levels at a specific point in time and make an accurate determination of increases or decreases.

## 1st Quarter 2009 Statistical Report

	1st Quarter Number Of Offences			% Change (2008-2009)	Year To Date Number Of Offences			% Change (2008-2009)

\*Selected Non Criminal Code includes: Accidental/Sudden Death; Missing Persons; Court Order; Domestic Information and Domestic Information Standby.

# Calgary Disorder Statistics – Calls for Service

In addition to monitoring crime levels, the Calgary Police Service uses a range of incident types to record levels of "Social Disorder". The incident types selected for this disorder index are those which can have a negative impact on citizens' quality of life and perception of safety, particularly in public places. These incidents do not tend to be represented well in "traditional" crime statistics which have a propensity to focus more on person and property crime.

DISORDER INCIDENTS	1 <sup>st</sup> Quarter 2009 Call Type*			1 <sup>st</sup> Quarter Number of Incidents				Year to Date Number of Incidents			
	Dispatched	Onview	Other	2007	2008	2009	% Change (2008-2009)	2007	2008	2009	% Change (2008-2009)
