Youth Victims	10

REPORT NOTES

The statistical data in this report is derived from the Police Information Management System (PIMS) and compiled by the Centralized Analysis Section. In order to make a fair comparison, we are using data which *has not been allowed to increase* due to late reporting of crime. With the exception of “weapons and intimidation” statistics, using static numbers allows us to compare crime levels at a specific point in time and make an accurate determination of increases or decreases.

The data contained in this report will only reflect the number of offences reported in the original publication. They are not updated. Although late reporting may occur, and offences may continue to be cleared as time passes, these new events are not taken into account when preparing this statistical report. It is important to note that cases are often cleared months and sometimes years later. Cases “cleared by charge” and those “cleared otherwise” are included in these totals.

Calgary Crime Statistics – STATIC NUMBERS

The static crime numbers on this page are derived from historical Calgary Police Service Statistical Reports. These statistics are used in order to make a fair comparison using data which has not been allowed to increase due to late reporting of crime. Using static numbers allows us to compare crime levels at a specific point in time and make an accurate determination of increases or decreases.

4th Quarter 2010 Statistical Report

	4th Quarter				Year To Date

Calgary Disorder Statistics – Calls for Service

In addition to monitoring crime levels, the Calgary Police Service uses a range of incident types to record levels of "Social Disorder". The incident types selected for this disorder index are those which can have a negative impact on citizens' quality of life and perception of safety, particularly in public places. These incidents do not tend to be represented well in "traditional" crime statistics which have a propensity to focus more on person and property crime.

DISORDER INCIDENTS	4 th Quarter						Year to Date							
	Number of Incidents			=n Change / % Change		2010 by Call Type*		Number of Incidents			=n Change / % Change		2010 by Call Type*

*This number denotes the number of people killed as a result of fatal traffic collisions.

NOTE: E-Collision reporting is a new data system which became operational in July 2009. At the time of printing this report it was not possible to separate collisions based on level of severity or to determine whether they occurred in a parking lot.

³ The number of fatal collisions has been adjusted to adhere to Alberta Transportation's guidelines governing motor vehicle collisions.

⁴ Total Reportable Collisions exclude collisions along private roadways or public parking lots.

⁵ CC Traffic Offences include Dangerous Operation of Motor Vehicle Causing Harm/Death as well as impaired offences.

Domestics – Static Numbers
